EXPERIENCE

Frontend Developer (Remote)

ColorElephant (Portugal) / 2019 - 2020

A fully remote software development company based out of Porto, Portugal. As a Front-End Developer, my core activities include:

- Creating new features and functionalities on client's project.
- Ensuring proper documentation and reports in all stages of product life cycles.
- Collaborated with customers to determine needs and work through design options.
- Worked with product designers and product managers to design user interactions in applications.
- Validated code for proper structuring security and compatibility with different browsers, devices or operating systems.
- Redesigned sites to enhance navigation and improve visual appeal.
- Created successful websites that met requirements for objectives such as load speed and design.
- Improved and designed new layout to achieve usability and performance objectives.

Junior Software Developer

Rocheaux Technology (Nigeria) / 2018 - 2019

A privately owned technology company based out of Lagos, Nigeria focused on delivering high-quality software products. As a Junior Software Engineer, my core activities include:

- Collaborated with Lead Engineers to meet internal developer environment expectations.
- Assisted software planning, development and testing for server, client and web-based developments.
- Contributed back-end development experience and collaborated on multiple APIs crucial to functionality.
- Creating modular, responsive templates using modern CSS/Sass techniques and JavaScript libraries.

PROJECTS

ComicWox - <https://comicwox.com>

ComicWox Distribution Company

This is a web application for a comic distribution company in Lagos Nigeria. The application allows studios upload comics and readers around the globe have access to studio comics. Readers can read, comment, start discussion on with other readers about a comic and subscribe to a particular comic or studio.

Tools:

- Code Editor - Visual Studio Code
- Language Stack - Full stack JavaScript (ReactJS, Node.js, Redux, Express.js), MongoDB

PROFESSIONAL DEVELOPMENT

Free Code Camp

Frontend Software Development
2016 - 2017
